DATA PROTECTION POLICY

Introduction

The GDPR replaces the Data Protection Directive 95/46/EC, which is now DPA 2018 and is designed to harmonise data privacy laws across Europe, to protect and empower all EU citizens' data privacy and to reshape the way in which organisations across the region approach data privacy. The GDPR came into effect on **25 May 2018**

This legislation requires a clear direction on policy for security of information held within the practice and provides individuals with a right of access to a copy of information held about them.

The practice needs to collect personal information about people with whom it deals in order to carry out its business and provide its services. Such people include patients, employees (present, past and prospective), suppliers and other business contacts. The information we hold will include personal, sensitive and corporate information. In addition, we may occasionally be required to collect and use certain types of such personal information to comply with the requirements of the law. No matter how it is collected, recorded and used (e.g. on a computer or on paper) this personal information must be dealt with properly to ensure compliance with the **Data Protection Act 2018**.

The lawful and proper treatment of personal information by the practice is extremely important to the success of our business and in order to maintain the confidence of our service users and employees. We ensure that the practice treats personal information lawfully and correctly.

This policy provides direction on security against unauthorised access, unlawful processing, and loss or destruction of personal information.

Please help to keep your record up to date by informing us of any changes to your circumstances.

Doctors and staff in the practice have access to your medical records to enable them to do their jobs. From time to time information may be shared with others involved in your care if it is necessary. Anyone with access to your record is properly trained in confidentiality issues and is governed by both a legal and contractual duty to keep your details private.

All information about you is held securely and appropriate safeguards are in place to prevent accidental loss.

In some circumstances we may be required by law to release your details to statutory or other official bodies, for example if a court order is presented, or in the case of public health issues. In other circumstances you may be required to give written consent before information is released – such as for medical reports for insurance, solicitors etc.

To ensure your privacy, we will not disclose information over the telephone or fax unless we are sure that we are talking to you. Information will not be disclosed to family, friends, or spouses unless we have prior written consent, and we do not leave messages with others.
